Attention is directed to the advertisement of Charles Rosa's Portable Burr stone Mill. Most of the Portable Mills in use in this country, are of the steel or cast iron kind. The Burr stone claims a decided superiority over these. Good mills are a universal necessity, and our planting friends will not fail to give the advertisement their attention, Mr. Dillon the Agent for this place, informs us, that he warrants all mills he sells, to give satisfaction, or it is no sale.

Nothing is more injurious than the use of opiates in such disorders. The Dysentery Syrup neutralises the scridity and chemically alters the outents of the Bowels and very gradually checks the discharges. A thousand certificates of its efficacy could be got in Middle Tennessee alone, but we prefer to give but one, from the chairman of the Board of Health, New

NEW YORK, April 25th, 1848. My position last year, as Chairman of the Sanitary Comcerons suffering from Cholera, Dysentery, &c. Factsoning under my own observation, with reference to the Nashville to Beaver Dam Springs. coming under my own observation, with reference to the efficacy of your Dysentery Syrup In the diseases, have been confirmed by the testimony of my associates on the committee, and particularly by Alderman De Forest, of the First Ward. So strongly was I impressed with the value of your preparation, I caused it to be sent to the Quarantine, where the Cholera then existed; and it is not a little remarkable that but a single case was reported afterwards.

The Children's Panacea is well known to be most efficacious in all disorders of children from one to five years old. Why should two-thirds of all the children born die before they are five years old, if it were not that the Vermifuges and all the other powerful medicines adminis-tered to them were not most injurious. Teetring and other diseases of the second summer cause but little apprehen-aion where this is used. The Dysentery Syrup and Chil-dren's Panacca are worth more than words can express. july17.
